

Dear Harvard Schools Trust
Board Members,

We are so grateful to you for all the ways you support students in our district. You may never know that your funds toward the Model UN trip inspired a future politician or that a student's life is saved by not texting and driving after that valuable program you sponsored. We know that all of your volunteer hours are making a positive difference.

The variety of grants you award ensures that whether a student is a sports player, music lover, young or older, they are benefitting from the enrichments you fund.

We are fortunate for our on-going partnership. Here's to a bright future together.

Sincerely,
Linda
Dwight
