

Dear Terry and HST Committee,

Thank you for your continued support of students through your grant program. The School Committee members have asked me to express their appreciation for your partnership. We marvel at the diversity of the requests from African Drumming to a projector for drama. Each of your generous awards enables a group to go further or explore new aspects of their interest area. We appreciate the time you give to researching and discussing each request. The value of your work impacts many students across the district.

Sincerely,

Linda Dwight
