

*Dear Harvard Schools Trust:*

*The Bromfield Business Club would like to sincerely thank the Harvard Schools Trust for their donation of a generous grant that assisted in the payment of valued club members, along with its two advisors, to visit the Sheraton Hotel in Framingham and participate in the Business Professionals of America State Leadership Conference. This trip was an unique learning experience and was made much more affordable through your donation.*

*BPA, a high school club for 25 states and 45,000 students, hosted another state conference this year in Framingham. A total of 25 students participated in the conference to represent The Bromfield School. These students had the ability to gain and exercise their knowledge in business, mathematics, video production, graphic design and grow as leaders and activists. Out of all the club members attending states, 22 of them were recognized on stage for their achievements while the rest of the organization applauded their accolades. The experience that students gained competing against other high schoolers at the State Leadership Conference helped to increase their leadership, communication, and business skills. Students had the unique opportunity to explore their interests in accounting, leadership roles, medical office fundamentals, economics, and many more programs at States.*

*In conclusion, we would like you to know that we are extremely grateful for the role you played in helping us further our education, learning leadership skills and values, and growing closer to our classmates and advisors over the course of this three day trip. We hope this letter comes close to showing our deep appreciation for everything you have helped us achieve through your generosity.*

*Our Deepest Appreciation,  
The Bromfield Business Professionals of America Club*
