Hello Lindsey and Terry,

Thank you. We are looking forward to Life Science Week, modeled after engineering week in the past. Lauren has done great work putting it together and it is such a wonderful opportunity to connect with members of the community and help students appreciate their work. We all have an increased awareness and appreciation for life sciences nowadays...

Thanks  
Josh

To the Harvard Schools Trust

The Harvard School Committee would like to thank the Harvard Schools Trust for your support of Life Science Week at Hildreth Elementary School. With your donation, classes will read a picture book and host a parent volunteer who works in life sciences to talk about their career. Classes will also do a very simple but engaging experiment looking at the surface tensions of water (the building block of all life).

With your financial support we will be able to purchase 1 copy the book of "Don't Lick this ook" for each class K-3rd grade and 1 copy of the book "Tiny Creatures" for each 4th and 5th grade class. Also 2 sets of 150 plastic eye droppers will be purchased to assist with the experiment.

It is so exciting that the Harvard Schools Trust was able to bring Life Science Week to a whole new level with your generous donation. The Harvard School Committee is immensely grateful for the support provided by the Harvard School Trust.

Sincerely,

A handwritten signature in cursive script that reads "Linda G. Dwight". The signature is written in black ink and is positioned below the word "Sincerely,".
